

## GREAT CROWDS AT BELOIT FAIR

The Line City Event Has Been a Big Financial Success.

## WAS WELL POLICED

One of the Races on Yesterday's Program Was Great Sport.

## SOME SMALL THEFTS

Beloit, Wis., Aug. 23.—The second annual inter-state fair closed today with an attendance of about 5,000. The fair has been a great success from all points of view. Not a single accident or serious disorder occurred during the week and the absence of skin games and grafters, pick-pockets, etc., was remarkable. The astute force of policemen under Chief Marshal Wm. Appleby undoubtedly had much to do with their absence.

Visitors to the fair from other cities have been very well accommodated, mainly by reason of the lack of hotel facilities, but all have a good word for the fair and the city. Many complained because all of the retail stores were closed down at six o'clock p. m. The events at the fair kept the crowd until after six o'clock each day and when the strangers got in from the grounds and tried to buy clean linen, etc., and found the doors of the places of business closed in their faces, the remarks made would not do for publication.

The race card Friday contained two very good events—the 2:18 trot and the 2:25 pace. The free-for-all trot was a fizzle. Only two horses started and only one of these had a look-in. Gold Standard, owned and driven by George Castle of Chicago, won the race in hollow style, only three heats being required to earn the money. The time was so slow that the stands wanted the 2:18 pace changed to the free-for-all. 2:20 1-2 was the best time made.

The 2:18 trot furnished good sport. Manning won the race but the whip was laid on freely to do it.

The 2:25 pace was the feature of the week's racing events. Three horses were entered—Cherry Valley, owned by W. Welch of Beloit and driven by Kimlin; Queen Lillian, owned and driven by M. W. Asker of Salem, Ill., and Lottie D., owned and driven by C. C. Morgan of Genoa Junction. Cherry Valley won the first heat in a hot finish. In the next heat, Lottie D. passed under the wire first after taking the tire off of Cherry Valley's sulky in passing on the back stretch. This aroused Kimlin's ire and he protested loudly to the judges but it was not allowed. Mr. Asker claimed he won the first heat of this race also, and talked so strenuously to the judges that Starter immediately threatened him with a fine of \$100. This caused Mr. Asker to cool down considerably. In the third heat Cherry Valley again won, but in the next heat was set back to third place for unfair use of the whip by Driver Kimlin. Queen Lillian won the heat. In the fifth heat Queen Lillian again won and Cherry Valley was all in, finishing third. The owner immediately insisted on a postponement under the rules of the trotting association as the sun had set. Accordingly the race was set for nine o'clock Saturday morning.

J. B. Merritt of this city, owner of the paper mill at Rockton, had his pocket picked as he was leaving the grand stand on Friday afternoon and lost a pocket book containing ten dollars in change and a bank certificate of deposit for \$1,100. The officials of the bank were immediately notified so the thief obtains nothing but the money in the purse. Mrs. Lewis, a boarding house keeper on Fourth street had her purse containing four dollars stolen on Thursday and Friday she had the same thing happen only amount was smaller the second time by half. The lady went into the crowd around the betting ring against police advice and reaped the reward. The actual attendance at Thursday's fair according to the treasurer's statement was in excess of 12,000. This would pass for 25,000 at most fairs. The association has come out with a nice balance on the right side of the ledger.

## ROAD TO GIVE TEXAS OUTLET

Short Extension Will Link Cotton Belt With Gould Lines.

Carbondale, Ill., Aug. 23.—The new railroad that is being constructed in a northeasterly direction from a point near Thebes, Ill., is to be extended to Alton. This new link will be the last to connect the Cotton Belt system with the Gould lines in the northern territory, thereby making a thorough line from Texas to Chicago and the east.

At Zeller's Junction will be made with the Leiter road and at Alton this extension of the Cotton Belt will connect with the Wabash road. Along the territory in Illinois traversed by this new line is a vast coal deposit. The railroad interests have purchased nearly all the available land and are sinking mining shafts in several places.

## NEW JERSEY WOMEN CLEAN THE STREETS

Paterson Matrons Do Work the City Neglected to Accomplish on Request.

New York, Aug. 23.—(Special).—Water street, from Arch to Clinton, Paterson, N. J., is as clean as if a painstaking "white wings" had gone over it. Its condition is a surprise to all who saw it, but no credit is due to the street cleaning department. The street, like the most of the others there had long been an eye sore to the residents on it. For weeks they had been trying to induce the aldermen to induce the street cleaning department to do some real work, but without avail, and the pavement was almost wholly hidden by dirt and rubbish.

**Women Work.** On Wednesday Mrs. David P. Forshay called a meeting of all of the women on the block. Mrs. Forshay stated her idea. It was to organize a home street cleaning brigade composed of women solely, to get out and clean the street. The suggestion was approved by all, and all enlisted at once. This morning at 7 o'clock the women appeared armed with brooms, shovels, hoes, picks and rakes. They worked hard and well and in an hour had a good portion of it in a fairly presentable condition.

Men gathered in groups and watched the work and some even jeered at the women, but all kept on. When the work was done the sides of the street were lined with barrels, and boxes filled with dirt. Later in the day they roared and butchers of the neighborhood sent their wagons and the boxes and barrels were carted away. Having cleaned the street the women met again and decided that it should be kept clean. Three times a week they will gather to do the work, provided the authorities do not wake up.

## SPARKS FROM THE WIRES.

Waukegan has joined the fight against automobile searchers. Mrs. Stuyvesant Fish's colonial ball eclipsed anything ever seen in that resort.

Two Chicago policemen who used revolvers on the street must face the trial board.

A cable car at Kansas City ran down a steep incline. One person was killed and several injured.

A gripman was killed and several passengers were injured in a cable car accident at Kansas City.

General Nelson A. Miles was banded out of \$1 by a scheming hackman at Leonister, Mass.

Pressure has been exerted at the vatican to make Ireland cardinal in charge of the Chicago archdiocese.

National boxers said that the insurance rates were practically prohibitive, and they may establish a mutual company.

Orders for the shipment of the bodies of Mr. and Mrs. Charles L. Fair from Paris were countermanded at the last moment.

Compulsory education, declared E. Benjamin Andrews in a Chicago address is the only means known of reforming the world.

Minister Lelchman was summoned by the Sultan of Turkey and given fresh promises that all United States claims would be paid.

Attorney General Hamlin decided that the Illinois statute requiring reports from corporations organized in the state was mandatory.

In the eastern navy war game no attack has yet been made and the defending party have yet failed to find the attacking squadron.

It has been supposed that Messrs. Tripp and French of Chicago, whose horses were found dead in the Colorado hills, came to grief also.

While flying a kite at Rochester, N. Y., a man was killed. He fell forty feet from the roof from which he was paying out the kite string.

A dispute in the Fair family delayed the shipment of the bodies of Mr. and Mrs. Fair, who were killed in an auto accident in France.

M. Saratoff, former leader of the Macedonian revolutionary party, was said to be the head of up lot to assassinate the Sultan of Turkey.

A decision has been reached to prosecute the persons involved in the supposedly fraudulent tax roll in the Chicago Masonic Temple case.

Premier Bond of Newfoundland has received the sanction of the British government to re-open reciprocity negotiations with the United States.

For the present all water in the Chicago schools and in the hydrants near them will be shut off in order to furnish protection against typhoid fever.

Official denial has been made of the rumor that Ambassador Von Holleben will be supplanted at Washington by Dr. Munn von Schwartzstein, now stationed at Pekin.

Protest from the officials of the other lines have been made against the offer of the Grand Trunk railroad to give free transportation to general passenger agents.

Grand Duke Boris in summing up his impressions of the city of Chicago said that it was "good enough for him" and he laid great stress on the Russian friendship for the United States.

New pictures, which have been said to resemble Bartholin much more closely have been circulated by the Chicago police and all efforts to find him redoubled.

President Roosevelt began his tour of New England, making the first stop at Hartford in an address in that city he predicted early action for reciprocal trade relations with Cuba.

Priests representing 100,000 Indiana Roman Catholics, adopted resolutions expressing their confidence in the ability of President Roosevelt to find a solution for the Philippine difficulty.

## BELIEVE STRIKE IS NEARLY OVER

Wall Street Thinks That Miners Will Return To Work.

## BACKBONE BROKEN BUT FEW ESCAPE

Reports Say Morgan's Refusal to Aid Furnishes Their Last Hope.

## OWNERS WILL WIN

(Special By Scripps-McLain.)

New York, Aug. 23.—There is a growing feeling in Wall street that the end of the great anthracite coal strike is almost in sight. The rumor has caused a decided rise on certain securities that have been affected by the trouble and the market was slightly panicky.

**Operators Win.** The report says that the operators have won the struggle and that the miners are tired out by the long struggle will give up and go back to work within the next two or three weeks in the least.

**Morgan Fails.** They claim that the last hope of the striking coal men was placed in the action of Morgan and that his refusal to do as they wished has broken the backbone of the trouble and all that is left for them to do is to give in.

## THE TIME LIMIT IS NOW FIXED

Officers Can Not Serve in the Philippines Longer Than Three Years.

Washington, D. C., Aug. 23.—(Special).—It has been decided by the war department to limit the term of duty of army officers in the Philippines to three years. A large part of the transfers were made during the last week with this end in view. In a few instances officers who have already served three years have asked for the privilege of remaining with their regiments, which are destined to stay in the Philippines beyond the alleged period of individual service.

**New Plan.** This new plan, however, results in numerous changes being made in the personnel of regiments. Officers who are promoted and who are carried to another regiment would be liable for duty for two terms in the Philippines, unless there were constant transfers made to prevent this. It is intended that an officer's service in the Philippines shall not be longer than three years, unless, of course, he especially desires to remain with the regiment to which he has been allied, and without regard to the fact of his already serving the required time.

## COMBINE OF PACKERS PRACTICALLY ASSURED

Cudahy Interests at Omaha Said to Have Made Proposition to Sell Out or Join.

Omaha, Neb., Aug. 23.—Officials representing the interests of Armour & Co. in this city said positively that the consolidation of the packing interests is practically accomplished and in spite of present denials the official announcement is not likely to be delayed more than a few days. They asserted that the Cudahy interests had finally consented either to sell or to enter the combination and it was the determination of which of these two propositions would be accepted that was delaying the official announcement. Up to the time E. A. Cudahy and Manager Howe of the local Armour plant went to Chicago it was thought the Cudahys would not sell out. Since then there has been great uneasiness among the high salaried employees of the companies.

**Who Got the Money.** A man, having had a sum of money left him at the death of his father, went to see his solicitor, who had the matter in hand, to arrange the final settlement. The bill of costs having been presented to him, the man glanced over the figures and, thinking the charges were excessively heavy, turned to his legal adviser in astonishment. "My father left his money to me—not to you!" he exclaimed.

## ONE GOULD APPROVES ARBITRATION.

In a telegram to the editor of the Richmond, Va., Evening News Frank J. Gould, who is supposed to be the ruling spirit in the street railway organization of that city, has given his emphatic approval of the arbitration system for the settlement of pending disputes between the employe and the management of the company.

## HONOR FOR LORD CURZON.

Lord Curzon of Kedleston is sure of a step in the peerage when his Indian viceroyalty comes to an end, says the London Chronicle. He will then be in the rare, though not unique, position of holding a rank greater than his father's.

## ATTACK THE CITY OF BLUEFIELDS

Filibustering Expedition of One Thousand Fight Furiously for a Time.

## ONSLAUGHT FAILS

Reports Brought by Refugees from Central America on Steamer San Juan.

(Special By Scripps-McLain.)

San Francisco, Aug. 23.—Passengers from the South American ports arriving here today on steamers report much fighting in Nicaragua. The steamer San Juan brought many citizens from that state who are fleeing to avoid the fighting that is now going on there.

**Attack Bluefields.** They report that on July 25 a party of one hundred political conservatives of Nicaragua aided by a few Colombian revolutionists, landed at Bluefields and attacked the city in an old time filibustering way.

**Party Captured.** The majority of the party were immediately arrested by the government forces and placed in jail. The others escaped. Just why so small a party should have made the attack seems to be a mystery to the government officials.

## WANT A SPECIAL LEGISLATION ACT

The Island of Guam Needs Particular Attention, Just at Present.

Washington, D. C., Aug. 23.—(Special).—The navy department will recommend that congress enact some legislation which will clear up the anomalous situation, which at present exists on the island of Guam. Acting Secretary of the Navy Darling, under whose supervision the government of that island is carried on, is giving the situation of affairs there a great deal of consideration, but as yet has arrived at no definite conclusions concerning the recommendation which he will make. The administration of justice is one of the things which calls most greatly for action.

**Provision All.** It is possible that a way out of the difficulty might be found by extending over the island the provisions of the act which extends the Federal statutes over the guano islands, and gives the United States court into which an offender from those islands is brought jurisdiction over his case. The receipts from customs duties have made the island self-supporting, but unless legislation is enacted by congress a test case could be brought in a United States court which would nullify the present tariff, and thus destroy the revenues of the island.

## URGES ARBITRATION TO END COAL STRIKE

Russell Sage Says Operators and Miners Should Get Together and Settle Their Differences.

New York, Aug. 23.—Russell Sage voiced the universal sentiment by saying that the coal strike ought to be settled at once.

"The operators and miners should get together and arbitrate," said he. "The strike is causing untold suffering and I believe that arbitration is the only solution."

Few bankers and brokers in Wall street had any other opinion than that given by Mr. Sage, but they would not express themselves for publication. A banker of international prominence said:

"I have been stuck myself by the price of coal. I buy it in large quantities usually, but yesterday I couldn't get more than one-ton and I had to pay \$10 for that. I believe the strike should be arbitrated."

## CHewing Tobacco a Necessity.

They have a Sunday closing ordinance in Joplin, Mo., and under its provisions only necessities may be sold. A grocer was accused of selling plug tobacco on Sunday, but his attorney raised the point that chewing tobacco is a necessity. Judge Brown, before whom the case was tried, took the same view and discharged the accused. Then he took a fresh chew of plug and called the next case.

## DEPEW'S SON STUDYING MEDICINE.

Chauncey Depew's son "Buster" intends to study for the medical profession and his father has been consulting some famous French doctors about the matter. The young man will probably be given a private laboratory in the Pasteur Institute, Paris.

## GOATS' HAIR FOR DOLLS.

The hair on the heads of most of hundreds of thousands of dolls is made from the hair of the Angora goat. This product is controlled by an English syndicate, and after the hair is prepared it is sent to Munich and made into wigs by girls.

## CLEVER WOMAN IS A LYING BEGGAR

She Claims To Be the Widow of a Prominent Chicago Gentleman.

New York, Aug. 23.—(Special).—Agent James Forbes of the Charity Organization Society arraigned in the police court today a fine-looking, middle-aged woman, who was described as "The Queen of the Beggars." She described herself as Mrs. Jenn Harris Hunter, 50 years old, of Brooklyn, and declared that she was the widow of Alexander Hunter, former president of the Chicago board of trade. She was dressed in widow's weeds and was of distinguished appearance. "My husband was a thirty-third degree mason," she said proudly.

**Is Arrested.** She was arrested, the detectives said in the banking house of Kuhn, Loeb & Co., on the charge of vagrancy, with a marked \$1 bill in her possession which Manager Mitchell of the firm had given her. At the police station she was searched, and many begging letters, addressed to prominent persons of wealth, were found in her pockets. They gave various excuses for her plea. It is estimated that in the last twenty years she has received from \$20,000 to \$30,000 in this way.

**"Mrs. Hunter."** "Mrs. Hunter" also had a letter of introduction and recommendation from Rev. W. J. Harris of Oakland, Cal., who is said to be her brother. Agent Forbes declares that "Mrs. Hunter" has been helped by almost every large business firm in New York. She had had rare success with the railroads, the police say, there being found on her person passes on the Union Pacific, Wabash, Atchafalaya, Topeka and Santa Fe, New York Central, Southern Pacific and other railroads. She also had a list of the names of charitable people. Mr. Forbes doubts that she is the widow of Alexander Hunter.

## STATE NOTES

Miron Culver, town clerk of Boscel for thirty-seven years, died on Friday at the age of eighty-six.

Milwaukee will call for an investigation of the neglect by contractors which has caused so many badly built walks in the city.

Mrs. Katie Norton applied at the office of the Milwaukee superintendent of poor and asked for aid. Her husband is an actor.

Judge Siebeck of Milwaukee handed down a decision in favor of William Plunkinton in an assignee case in the suit of Henry Herman.

Mrs. C. E. Wilcox and her sister, Mrs. Levi Sperry of Evansville have gone to Hymore, S. D., to visit their parents Mr. and Mrs. J. D. Mable.

The five-year old daughter of John Grenor of Marinette was terribly burned while throwing kerosene on a bonfire and she will probably die.

The National Box and Shook manufacturers' association in their annual meeting at Milwaukee have been combining business with pleasure.

The annual pink ball poude was held at the Park Hotel, Waukegan, on Friday night, and was one of the most enjoyable events of the season.

Mrs. Louis Caya, of Prairie du Chien, aged twenty, committed suicide by taking two ounces of carbolic acid. She sent her sister to buy the acid.

Private Edwards of Co. D, of the 3rd regiment leads this week in the shooting competition on the Camp Swanson range at Camp Douglas.

State factory inspector, J. Henry Harbeck, of Appleton ordered the discharge of nineteen boys and girls from the Amey Candy Co's. plant in Green Bay.

Conrad Rudolph of Milwaukee held up at Palmyra, was robbed of fifty dollars. One man held him on a St. Paul train while another picked his pocket.

Secretary John True of the Madison falls has been negotiating with two veteran engine drivers to act as engineers in the head end collision to be given at the fair.

Thirty-one licenses to non-residents of the state have been issued at Madison to hunters from six states. Twenty-seven of them are for small game and four for deer.

Mayor Grusenbach of Watertown has issued orders for the arrest of Prof. Miller, an evangelist who has been preaching on the streets in that city, if he does so again.

The non-commissioned officers of the Illinois National Guards now at Camp Logan gave a banquet at Kenosha on Friday evening. Fifty officers and their friends were present.

Agents of a western tannery who had been in Kenosha in the hope of obtaining men to work in their plant reported that they believed that there was not an idle man in that city.

O. Elverker, the capitol messenger, who was bitten on Thursday by a cat, was again bitten by the same cat on Friday. It is feared that the animal was suffering from hydrophobia.

While driving with his wife and children Charles Feltzer of Syme was thrown from the wagon and received injuries from which the doctors say that he cannot recover.

The National German-American teachers' seminary of Milwaukee will enter upon its twenty-fifth annual course on September eighth. A special class will be opened for the graduates of the high school course.

The horse show at Oconomowoc has thus far proven itself a success of the first water. Hundreds of beautiful women and handsome horses have thronged the country club.

Mrs. Carl Wilson of Kenosha yesterday took one of the most unique obligations ever taken by a woman. In which she promised her husband almost complete servitude.

## NOMINEE WILL BE H. C. ADAMS

Madison Man the Probable Republican Candidate for Congress.

## SUPPORTS SPOONER

All Opposition to Mr. Adams Has Practically Been Withdrawn.

## FIELD SEEMS CLEAR

(Special A. D. Dispatch.)

Madison, Aug. 23.—Opposition to the candidacy of H. C. Adams for the republican nomination for congress from the Second district has diminished to a minimum of his two opponents, Herman Dahle, present congressman and W. C. Letsch, Dahle has withdrawn in a public statement and it is this morning reported that Letsch is now out of the race and will not oppose Adams in his nomination.

**Letsch a Machine Man.** W. C. Letsch, the candidate said to have withdrawn is a strong La Follette supporter. He is one of the gold democrats who left the party in 1896 and entered the republican ranks. He is a graduate of the University Law School and is a most able and eloquent speaker. He has served for several years as Mayor of Columbus, his home town and is very popular through Columbia county where he has a large following.

**Used Him.** It was through his efforts that Columbia county went so strongly for LaFollette in the caucuses and as a reward he was promised the support of the administration in his attempt to become a congressman.

**Mr. Adams.** H. C. Adams who seems now to have a clear field is a Madison man. He has been for years the Dairy and Food Commissioner and lately resigned to enter this fight in the congressional nomination. He has not taken any fight for or against the governor. He is however a great friend of Charles Pfister and an earnest supporter of Senator John C. Spooner and his prospect of nomination is considered as a good clean victory for the Spooner men.

**Shaved by Lightning.** David Fuller, a farmer near Richmond, Va., lost all his hair during an electrical storm recently. His head, which before a bolt of lightning struck him was thickly covered with hair, was cleanly shaven. He was otherwise uninjured.

## RICH PLACER STRIKE ON THE COPPER RIVER

Metal is Plentiful in Sand and Gravel on Either Side of the Creek.

Tacoma, Wash., Aug. 23.—The steamer Excelsior brings news of an important placer strike on the coast of Cape Yakima, Copper River country. Three weeks ago a prospector arrived at Valdes from Yakima with the locations for record. He told friends and they started to locate more claims. The discoverer related that while prospecting in the vicinity of Yakima they found good prospects on one creek, which became better toward the source. They finally saw gold plentiful in the sand and gravel on either side of the creek. Going twelve miles farther, they worked thirty hours and cleaned up thirty-one and a half ounces of gold. They staked three claims for others without powers of attorney. They were anxious to keep the discovery quiet until they could return and stake more gold. The gold comes from large deposits of cement conglomerate which lie at the head of the creek.

## MURPHY READY TO PROVE ALIBI

Produces Witness to Exonerate Him From Harry Ball's Charge.

Kankakee, Ill., Aug. 23.—Asylum Trustee William E. Murphy of Tuscola brought a witness to Kankakee by whom, he asserts, he can prove a complete alibi, exonerating him from the charge made by Harry Ball, Ball's hearing for release from the perjury charge on habeas corpus proceedings is set for Sept. 8 in Chicago. Murphy's witness is the foreman of Murphy's farm, who keeps record of the meals taken by his employer at the farm. The state's attorney took the evidence.

## BROOMMAKERS TO FORM TRUST

Scheme to Effect a Consolidation Said to Be on Foot.

Arcola, Ill., Aug. 23.—A. A. Shepard of New York city is heading a big scheme to organize a broom manufacturers' trust with a capital of \$5,000,000. It is said that over three-fourths of the leading factories of the United States and Canada have entered into the organization. The leading brokers of Arcola have been approached and asked to accept positions as purchasing agents for the combine.

## MUCH TOBACCO IS HARVESTED

CROP HAS GONE INTO SHEDS IN GOOD CONDITION.

### COOL WEATHER A DETRIMENT

Leaves Are Not as Large as They Should Be—Eastern Leaf Transactions.

During the last two weeks a considerable portion of the present crop of tobacco has been harvested and the most of it has gone into the sheds in first class condition. The pleasant sunny days of the last week have been a great help to the growing crop, but the cold nights have not been what the tobacco growers wished for. What it really wants at this time of the year is some hot sunny weather for the development of the later fields. Cool weather has a tendency to thicken the leaf which is an undesirable thing in a good binder.

#### Fairly Good

The crop as a whole will be fairly good. The leaves, while of a good length are not as long and spready as they should be. Despite the fact that the crop had a favorable start and for some weeks made a rapid growth, it has not reached the development expected, and there are very few early crops of really large growth.

While the harvest this year is quite early it will not be all completed before the tenth or fifteenth of September.

#### Cured Leaf

Dealers in cured leaf report a trifle better tone prevailing the market. Inquiries are becoming more frequent and some trading is being done.

#### New England

In the general eastern market the leaf is being taken by the New England crop, the inspectors' samples of which are now on exhibition in the most of the packing houses. The sampling of that crop, it is reported, has given heartburn and headache to many a packer. For the recognized samplers are said to have refused to guarantee their samples for any length of time. A great deal of cleaning has consequently been done with the effect of reducing the quantity of the sound leaf and of increasing its value. Sound running lots command therefore a minimum price of from 28 to 30 cents, while seconds which in many packings contain an abundance of light, thin leaf, are rated at 25 cents. The market with such figures will undoubtedly prove a difficult one, but the extensive dearth of domestic wrapper leaf is bound to force sales no matter how much balking may be done against the goods and their prices. Several transactions have indeed taken place already, among which may be mentioned one of 100 boxes of medium-sized and rather dark wrappers at 37 cents. Most of the out-of-town buyers are still shy at closing transactions, but as the crop cannot be made over again they will have to take it as it is.

#### Ohio

Growing tobacco is doing finely here and in many sections is almost ready for harvesting. The leaves are quite heavy, so the percentage of binders and wrappers may be low, but it is expected that the extra weight will average up the money yield to a very satisfactory figure. In last year's leaf there is little or no business, simply because it has been nearly all absorbed, but little remaining in the hands of the growers. The general opinion here is that the ill winds which have visited the other tobacco sections will blow good fortune this way, where a full crop is assured, if nothing serious to prevent does not happen.

#### New York

This section has not escaped the ravages of hailstorms, and many of the farmers in the Onondaga district are much discouraged by the damage to the growing tobacco. The season has been backward all along but growers comforted themselves with the belief that they would get a fairly good yield, even if a little late, but the recent hailstorms have shattered the hopes of many. In some instances the plants were so cut up that ploughing under was the only thing left to do and in these cases, of course, the loss is total. Others whose crop was of the later set, expect their plants to recover, but in a few instances a yield of more than 75 per cent. anticipated. In the Bay State district little or no damage has been done, but the crop is rather late, and farmers are not shouting for fear that they are not yet out of the woods.

Cold weather, copious rains, continued cloudiness and more than occasional hailstorms are not exactly the conditions best suited for growing tobacco, and that we have suffered all of these things is a very sad fact. Of course there are spots which will yield a full crop of fine tobacco, but these are outnumbered by the localities where the crop has been seriously damaged, and in some cases absolutely ruined.

#### Connecticut Valley

Purchasers are much more eager to acquire what tobacco remains of the 1901 crop than the holders of it are to dispose of it, the latter believing that by holding on they will make good interest on their money, and the activity of the former does not tend to dissipate this belief. Two causes operate to cause this opinion. One is the known shortage of the crop now about ready for the market, a very large portion of which, by the way, has been force-sweated, sold, worked and consumed by this time, and the condition of the growing crop, which, it is now generally admitted, will be smaller and possibly poorer than usual.

#### Pennsylvania

In Pennsylvania a streak of bad luck has come upon a good many of the growers. The most far reaching hailstorm within my recollection visited this county after my last week's letter was written, and did a great amount of damage. The storm entered the county at its western boundary, and travelled eastward over about

thirty miles of territory. In width the storm was from two to six miles. Of course, hail did not fall over that entire territory; if it had a million dollars' worth of crops would have been destroyed, but it fell in spots, here and there, over that area, less in some localities and worse in others. Milwaukee

In Milwaukee leaf business during the past week was about the same, as reported in last week's letter, although some jobbers report a better movement of tobacco. Collections are fair, and as good as the most of the houses expect at this time of the year.

#### St. Louis

No change to report in the condition of the St. Louis tobacco market. Business is running quietly along, and single transactions are unimportant, but collectively foot up an amount that compares favorably with past records at this season. Buyers are holding off to look at the samples of new Connecticut which are expected soon, and of Wisconsin, which is expected on the market early in September. Retailers are kicking a little, but they forget that last year and the year before the trade was poorer than it is now. Jobbers are putting out the usual amount of goods. The middle of September should find all hands busy.

#### At Wausau

Just how far into the northern counties of this state tobacco culture can be successfully extended is yet a question to decide. Mr. C. S. Curtis of Wausau thinks it can be done beyond the middle of the state. In a recent interview he says:

"The soil upon which the pine grew is good for more things than was supposed. We are proud of our fine grasses and pasturage and of the stock that is bred on them and we are proud of the other things that we are raising. Now we have tried tobacco which is generally thought of as a southern crop, and our soil, you know, is still regarded by many as an arctic soil. Experiments have shown that tobacco grows well in the soil and we are trying now to see if it is a safe and paying crop. If it so proves, Marathon county will become a good tobacco country. The growing of tobacco is a great industry in Wisconsin and year by year the crop reaches further north. Marathon county is the farthest north that they have dared to try it as a crop, although some choice leaf was ripened in a garden as a flower plant at Ironwood several years ago. We are filling up the country up north and every new thing we find to grow with profit helps us just that much in developing the country. People ought to come up in the valley and see just what it can do."—Wisconsin Tobacco Reporter.

## BOY HORSE THIEF IS HELD FOR TRIAL

HE IS CHARGED WITH LARCENY

In Default of \$500 Bail He Goes to Jail—Judge. Fildes Is Worried.

Willie C. Bergh, the fifteen year old boy who was arrested last Tuesday morning at Lodi, Wis., for the theft of Nicholas Schenck's team and survey, was brought before Judge Fildes yesterday morning on the charge of larceny. He waived examination but was given some encouragement August 22 at 10 o'clock. His bail was fixed at \$500, and in default of which he was turned over to Sheriff Maltress for safe keeping. The boy's father was in town yesterday and this morning to see what could be done to help his son out. He was not successful in his efforts but was given some encouragement by the district attorney, and will return when the case is brought up for trial.

#### Appears Sorry

Young Bergh seems to feel his arrest keenly since he begins to realize what he has done. He is just at that age when he is very susceptible to good or bad influences and Judge Fildes is very much worried about the case, as he thinks the prisoner could be a good boy and keep out of trouble if he was in some place where good influences are brought to bear upon him. The judge will give the matter due consideration between now and the time the boy comes up for trial to see what is the best thing to do for him.

Young Bergh is not anxious to return to his home in North Branch, and prefers to go to most any other place.

Madam:—In reply to your note will say, give your children Rocky Mountain Tea each week. Keep them well all the time. 35 cts. Smith's Pharmacy.

Rev. George L. McNutt in an address at the Winona Bible conference said that the working people were not wanted in the churches. His statement was strongly opposed by the attending ministers.

## THE ROCK RIVER TOWER IS READY

OPERATOR TO BE PUT IN CHARGE NEXT TUESDAY.

### SYSTEM NOT QUITE COMPLETE

Similar Tower and Interlocking System Will Be Built on the Northwestern Road.

At eleven o'clock next Tuesday morning the Rock River signal tower will be put into operation. The Rock River tower is the name that has been given to that which has been erected at the C. M. & St. P. crossing at McKee Boulevard. Yesterday and today the last work has been going on in testing the system, and with the exception of the details everything has been completed ready for use.

Tuesday, however, the last work will not have been completed on the system. It is still necessary to box up the open wires and rods at the street crossing and where they enter the tower. This work has been somewhat delayed by the failure of the oak planks to arrive from Milwaukee.

Altogether it will have been seven weeks from the time that the first rods were unloaded under Mr. Cori's supervision, until the time when the last nail had been driven, and the last bearing oiled. When the work at the Rock River crossing has been done the force will be transferred to the Chicago & North-Western road at the Mississippi crossing which is located two and one-half miles north of the depot near the county house. Another signal tower will be built at that place and an interlocking system installed.

The new tower will be rather more complicated than the one just completed. It will operate crossing signals at the intersection of the Milwaukee road, at the county house switch and sidetrack and will operate the switch. Altogether there will be twenty levers all of them active. The Rock River signal tower has the same number but four of them are blank, and it does not operate any switch except the details.

### CHURCH NOTICES.

St. Mary's Church—First mass, 8:00 a. m.; second mass, 10:00 a. m.; evening devotion, 7:30 p. m.; Sunday school, 9 a. m. Rev. Wm. A. Goebel, pastor.

Union Service: The service will be held in Court Street Methodist church on tomorrow evening at 7:30. Rev. James Churn will preach the sermon.

## PACKING OF CORN BEGINS NEXT WEEK

Large Force of Employees Go to Work at the Canning Factory Next Thursday.

On Thursday next packing of corn will begin at the P. Hohenadel, Jr., Canning factory with a large force of employees. It was originally planned that the twentieth should be the opening day, but it was later decided to postpone the date until next week. The picking processes are going on a full blast now and when the whole factory is opened up Mr. Hohenadel will be the busiest man in Janesville. Mr. Barthart is now in charge of the local factory in the owner's absence, and is superintending the care of the large quantities of cucumbers that are daily brought in.

#### Vollmuth-Leblinski.

Mrs. Rosa Vollmuth, of this city, and Philip Leblinski, of the town of Rock, were married Thursday morning at St. Mary's church. Rev. Father W. A. Goebel officiating. The witnesses were Mr. and Mrs. Joe Petroskewski. Both the bride and groom are elderly people, both being over sixty years of age. The bride, who is more generally known as Mrs. Rosa Schwartz, has engaged in several matrimonial ventures, her last husband having been killed by the cars several months ago.

## MOB TRIES TO STOP ALDERMAN Logansport Council Passes Ordinance

### Despite Angry Protests.

Logansport, Ind., Aug. 23.—A mob of angry and excited citizens tried to prevent the council from meeting before midnight and passing a proposed ordinance. The police force was summoned, the hall was partially cleared and council members rushed in. The meeting was held amid intense confusion. Outside several thousand crowded around the doors. The council finally passed the ordinance by which all interurban lines entering the city must come over the tracks of the Boyd interest and pay 2½ cents for each car.

### REFERENDUM LEAGUE TO MEET

Call issued for Friends to Assemble at Springfield.

Springfield, Ill., Aug. 23.—The Referendum League on Illinois, through Daniel L. Cruise, president, and Dan. W. Richmond, secretary, have issued a call for all friends of the initiative and referendum to assemble in Springfield Sept. 3 to 5 to petition the legislature to submit to a vote of the people of the state the question of a constitutional amendment to make the initiative and referendum part of the organic law of the state.

### HERD SUFFERS FROM BLACKLEG

Johnson County Cattle Afflicted With The Dread Disease.

Springfield, Ill., Aug. 23.—Dr. L. C. Tiffany, assistant state veterinarian, returned from Johnson county, where he was called to examine a herd of cattle suffering from a disease unknown to the local authorities. Dr. Tiffany says the disease is blackleg. Steps have been taken to prevent its spread to other herds. Texas fever is reported at Girard, Macoupin county, and several deaths have occurred.

### MEXICANS FIND VAULT OF COIN

Party of Fifteen Divides \$100,000 in Spanish Gold.

Uvalde, Mex., Aug. 23.—A party of fifteen Mexicans, unearthed at Cline an iron vault which, when opened, revealed a great pile of Spanish gold coins. The money was counted and divided on the spot in the presence of several reputable citizens of the neighborhood. The latter say that the find amounted to more than \$100,000. It is asserted that the money was buried by a paymaster of the Mexican army during the war with Texas.

## STOCKHOLDERS DO NOT LIKE METHODS

Are Dissatisfied with the Way Business of Badger Telephone Company Has Been Conducted.

The stockholders of the Badger State Long Distance Telephone Co. held a session Friday afternoon at the Myers House.

The proposition that is before the stockholders today is what is going to be done to remove the indebtedness of the company and put it on a paying basis.

The stockholders will have to make some move to take up the indebtedness or lose their interest in the company. There is a mortgage on the system that will be foreclosed unless some move is made upon it.

Stockholders Vary. Many of the stockholders are dissatisfied with the way the company has been conducted in the past and are loth to put any more money in it unless it can be shown them they are going to get something for their investment.

#### Position is in Demand.

The new constitution of Virginia provides for a corporation commission of three members, and though the appointments will not be made before November next, 110 citizens have already been announced as candidates for the three positions. Among these are two or three ex-governors and several members of the recent state constitutional convention.

## A Reputation

How it was made and retained in Janesville.

A good reputation is not easily earned and it was only by hard, consistent work among our citizens that Doan's Kidney Pills won their way to the proud distinction attained in this locality. The public endorsement of scores of Janesville residents has rendered invaluable service to the community. Read what this citizen says:—

Mr. Samuel Griffin, of 203 Locust St. journeyman car enter, says: "I had a severe attack of kidney trouble and as a result weakness of the kidneys set in. The secretions from those organs were greatly disordered, annoyed me much at night and I seemed to have limited control of them. After finishing the treatment my kidneys were so strengthened that I could sleep all night without being disturbed. I am better now than I have been for years, and give all credit to Doan's Kidney Pills for bringing about this result."

For sale by all dealers. Price, 50 cents. Foster-McMillan Co., Buffalo, N. Y. sole agents for U. S. A. 100 on at King's Pharmacy.

Remember the name, Doan's, and take no substitute.

**J.M. BOSTWICK & SONS.**  
THE BIG STORE 20, 22, 24, 26, 28, S. MAIN ST., JANESVILLE, WIS.  
WE KEEP THE QUALITY UP.

## Ready-to-Wear

Garments are selling well with us. Broken up Prices are doing the work. Our Suits have a certain style to that is particularly desirable and not found in the ordinary run of Suits. One thing noticeable is the excellent grade of the cloths in our Suits, which gives them longer life than many Suits,—they hold their shape so well, 3 to 7 dollars saved by buying now. Alterations Free.

## New Arrivals.

Separate Skirts, Separate Jackets, Silk Coats—They are receiving their share of attention. Low Prices prevail. Dress Skirts or Walking Skirts We have excellent styles in both and you can buy them at our greatly reduced prices and know that they will look well this fall as the styles are such that they will not look "out" for six months to come.

No two ways about it, one can certainly save dollars by buying now.

We are showing new Skirts, silk and velvet waists, blouses and colors. Shipments received since the 15th from five prominent manufacturers. Walking Skirts in black Oxford, blue, light gray and silk noil flared, some stitched others flaring, and a number with many gores, box plaits, etc., at 6, 8, 9, 10, 12 and 14 dollars. Waists of wash taffeta silk, moire velour, Skipper satin, good reliable taffeta and wide welt velvet, black and color, beautiful late creations, advanced fall styles at \$3 to \$7. For all around wear we have waists of fine black Mohair, unlined, four plaits in back and fine tucks in front, neat sleeve stock, all sizes to 44, at \$2.50. A comfortable, serviceable, neat looking garment that will appeal to many.

## Lace Curtains at \$3.49.

For carnival week we offer 150 pairs of white Nottingham curtains assorted patterns, regular \$4 curtains, of which we have too many, at \$3.49, and customers profit by our loss. See them in our south window.

## Bath Robe Blankets.

These fine wool blankets come in beautiful light and dark scroll and flowered patterns with contrasting borders. They are made expressly for lounging or bath robes and have a soft, velvety finish. They are in size 72x86 inches, and suitable for women or men. If you never had a lounging robe you have been missing a real luxury and also endangering your health, as they prevent many a cold after taking a warm bath or when getting up suddenly at night. These Blankets are \$3.50.

## Blankets.

We wish to direct your attention to two numbers in Cotton Blankets. At 75c, extra special size 60x83 inches, colors gray and brown mixed; worth 90c. At 87c, elderdown finish, white and gray blankets, good weight pretty borders, size 67x81 in, bought two cases out of season at much less than actual value. A bargain at 87c. The "Knickerbocker" colored shirt waists at 50c are worth buying. They are all \$1 and \$1.25 Waists. Others correspondingly low. Bargains in all departments. It will pay you to call and look around.

Something to brace up your energies and give them new life on a hot day is a cool glass ..... OF .....

La Follette, at the Executive Chamber in the Capitol at Madison, Wis., by Mrs. Fanny Marie Leblinski, for the pardon of one Roy Maranda, convicted of the crime of burglary in the Municipal Court for Rock county on the 18th day of September, 1901, and sentenced by said court on that day to five years imprisonment in the state's prison of the said state of Wisconsin.

## DOWIE'S

## WONDERFUL

How It Has Sprung Up  
Like Magic on Lake  
Michigan's Shore

## ZION CITY

no factory shall be in either. All manufacturing plants will be located on the lowlands skirting the lake shore. Zion City is making the brick with which it is being built, 40,000 being the daily output.

Chief among the industries will be the lace factory, now in operation. It is the only plant of its kind in America. It is housed in a fine brick building covering five acres, with eight acres of floor space. It is managed by imported talent, and the highest existing scale of wages is paid to employees.

That also is one of Dowie's decrees—that labor shall be paid according to its full worth. Within five years he expects that every inch of available space in the factory district will have been taken, that a great harbor will have been built, that vessels of commerce will lie thick along the shore, that thousands of men will find daily employment and that every muscle will be used, every brain be directed, toward the advancement of the faith of Zion.

The followers of Zion are composed of two classes of people, the very brilliant, more theoretical than practical, who feel the burden of the world on their shoulders, and the more simple sort of folk, who want to understand, but can't, and are willing to permit other people to think for them. They are not impulsive people who accept Dowie and his religion in an instant, in camp meeting fashion, but are those who have studied in their minds about him and have finally had all doubts swept away by the force of his magnetism.

In his secular capacity Dowie is called the general overseer of Zion. Virtually he is the owner of the city. Absolute title to lots and land is not given. Leases are executed for 1,000 years. These leases expire July 15, 3000. To every one is attached a group of provisions. The lessee agrees not to use the land "for any purpose contrary to the will of God, and particularly not for the sale of drugs, tobacco or alcohol in any form, houses of ill fame, theaters, gambling houses, hog raising or selling."

Upon violation of the covenants of the lease the land is forfeited and reverts to Dowie or his successor.

Moreover, there are to be no dance halls and no secret lodgerooms in Zion.

Zion City on Lake Michigan's shore will be Dowie's capital until his followers outgrow it. Ultimately he hopes to build a world's capital near Jerusalem. There, if his dream of religious conquest come true, he or his successor will rule the Catholic Church in Zion for all the world.

To become a member of the Church of Zion, a man must give an annual 10 per cent of all he earns and of all his worldly possessions—if he does not give all he owns. Dowie says it is merely obeying the Scriptural injunction to give "tithes to the Lord."

The secret of Dowie's power and influence is inexplicable. Whether it be personal magnetism or religious fervor, the fact remains that he is enlisting recruits in his cause by thousands, and they all render him unquestioned homage and obedience. He controls now about 100,000 followers.

Pilgrims are flocking from all over the United States and from Europe. In every part of the civilized world he has missionaries proselyting for his faith. Pilgrims have been rolling into the new city since last fall with their families and household goods. The railroads have been taxed to care for the business. The roads are swamped with lumber and overwhelmed with supplies and family effects. Every available shed, stable and tent on the grounds is occupied. Guests are packed like sardines in the hospital. The overflow is forced to Waukegan and other neighboring towns until such time as they may be accommodated in Zion City. And over all are the watchful eye and alert mind of John Alexander Dowie.

Zion City is forty-two miles north of Chicago and an equal distance south of Milwaukee, on the line of the Chicago and Northwestern railway. For 2½ miles its eastern edge is washed by the waters of the lake. From the shore the tract of 6,500 acres which at present comprises Zion City extends some four miles west, broken here and there by stretches of woodland. The prospect is one of exceeding natural beauty. The land, under the art of the landscape gardener, will make a superb setting for parks, lagoons, bridges and boulevards, all of which are embraced in the scheme of beautification.

The main avenues of Zion City are laid out 150 feet wide and the grand boulevards twice that width, with 100 foot parkways in the middle. In the center will rise one day a magnificent marble temple, projected to seat 30,000 persons. Every avenue in the city and every boulevard will lead to this temple. At present a temporary tabernacle of wood, seating 6,000 persons, furnishes shelter for the faithful at their devotions.

No business houses can encroach upon residential territory, no dwelling shall be in the commercial district, and

## MELANCHOLY WOMEN.

Always Afraid Something Dreadful is Going to Happen. Why Should Women Have the Blues More Than Men?

When a cheerful, brave, and light-hearted woman is suddenly plunged into that perfection of misery, the blues, it is a sad picture. It is usually this way:

She has been feeling out of sorts for some time, experiencing severe headache and backache; sleeps very poorly and is exceedingly nervous. Sometimes she is nearly overcome by faintness, dizziness, and palpitation of the heart; then that bearing-down feeling is dreadfully wearing.

Her husband says, "Now, don't get the blues! You will be all right after you have taken the doctor's medicine."

But she does not get all right. She grows worse day by day, until at last she realizes that a distressing female complaint is established. Her doctor has made a mistake.

She loses faith; hope vanishes; then comes the morbid, melancholy, everlasting blues. She should have been told just what the trouble was, but probably she withheld some information from the doctor, who, therefore, is unable to accurately locate her particular illness.

Mrs. Pinkham has relieved thousands of women from just this kind of trouble, and now retains their grateful letters in her library as proof of the great assistance she has rendered them. This same assistance awaits every sick woman in the land. Write her to-day.

How Two Women Were Cured.

"DEAR MRS. PINKHAM:—I was troubled very much with female weakness, falling of the womb and bearing down pains. Could not walk fifty yards without stopping to rest, and could not do my work. Life was a burden to me. Now, thanks to Lydia E. Pinkham's Vegetable Compound I am well and hope that every suffering woman will write to you and be cured."—Mrs. H. R. WELLS, Castlegate, Utah. (Aug. 29, 1900.)

"DEAR MRS. PINKHAM:—Please send me your advice in my case. The doctor has examined me, and said my womb was out of place, crooked, and inflamed, and that he could do me no good. I am twenty-nine years old and been in bad health for five years. Menstruation is not regular, have a discharge all the time, have sleepy spells, my sides and back hurt all the time, and am reduced to a mere skeleton."—Mrs. MAGGIE STARNETT, Keyser, W. Va. (May 16, 1900.)

"DEAR MRS. PINKHAM:—I highly praise Lydia E. Pinkham's Vegetable Compound for the good it did me. It caused my menstruation to come all right which had not been for one year, and I am otherwise well, thanks to you."—Mrs. MAGGIE STARNETT, Keyser, W. Va. (Oct. 4, 1900.)

**\$5000 REWARD.**—We have deposited with the National City Bank of Lynn, \$5000, which will be paid to any person who can find that the above testimonial letters are not genuine, or were published before obtaining the writer's special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.

## AN EVERY DAY TRAGEDY.

The tragedies of life are not all volcanic, and an earthquake is not necessary to remind the average home that human experience at the best is a drama, that is intensely real.

A few days since a young man propped up in an easy chair, was looking out over the expanse of blue water that sparkled in the morning sun light a pleasant reminder of the summer vacations which he had enjoyed from childhood.

As the friends of other years greeted him they were shocked at his appearance, for the stamp of death was already on his face, and it was painfully apparent that his days were numbered. He wanted one more look at the lake, that had furnished him so much in the way of pleasure, and he tried to make himself believe that a change would benefit him, but it was not to be, and in a day or two he was carried back to the city, and a few hours later his spirit went out to the land of perpetual sunshine.

His father was with him, as he entered the dark valley, and looking earnestly into his face he said, "Papa, the doctor says I can't live but I want to know what you think about it," and then he waited breathlessly while his father told him, that he feared that the doctor was right. Then he said:

"Well, papa I've always tried to be a good boy, and while I wanted to live I am not afraid to go."

And then his father assured him, with all the loving tenderness of a father's heart, that he had nothing to fear, for the home beyond was a happy home, and so the life of the boy went out, trusting and peaceful.

Just one more of the everyday tragedies of life, that are being repeated day after day, as time goes by.

While death is not an inspiring topic, and nothing is to be gained by encouraging morbid sensibility in thinking about it, yet it remains that the important event is not only the common lot of humanity, but the unwelcome visitor in transforming houses of gladness into houses of mourning every day of the year.

The impression prevails in many homes that sorrow is peculiar, and that when the family circle is broken by death, that the experience is more bitter than any that ever came to another home.

There is supreme selfishness in this kind of sorrow, for while the family relations of life are sacred, the heart of the great human family is very much akin. Sorrow is the common lot of humanity and it comes to every home with the same peculiar significance. It comes to the humble home with the same weight of bereavement that is experienced in the mansion, and the effects are frequently more real.

It is well to remember that if our home is visited today that a number of other homes share in similar suffering.

While death is always a tragedy it is sometimes a blessing in disguise. When people are living borrowed time, with work accomplished and hands folded, waiting for the summons it is a relief for them to depart.

When the mind is enfeebled, memory a blank, and mental faculties are dormant, death comes as a welcome release.

When disease becomes chronic, and saps vitality, and the future contains nothing in prospect but suffering and physical weakness, death is not an unfriendly guest.

This was the case of the young man referred to. Full of hope and boyish ambition, possessing a heart that was loyal and faithful, yet battling with a disease that knew no defeat, the struggle was unequal, and death was not occasion for unmixed sorrow.

While death comes to the aged as the expected fulfillment of life, and occasionally relieves from suffering the chronic invalid in early life it is no respecter of persons, and humanity is constantly standing beside the open grave, asking the question,

"Why was my home entered and our family circle broken up?"

Not a day passes, but that accident by the score are recorded, and every journal is crowded with obituary notices.

It is not the mission of a secular paper to attempt to answer these questions. Life is full of mystery, and there are some problems that are as old as humanity which have never been solved.

Death is as natural as life, and no more mysterious. It is just as easy to explain why useful people are permitted to die in the prime of life as it is to explain why vagabonds continue to live long after they have ceased to be anything but a nuisance. Theology has never offered very much in the way of explanation or consolation.

In the case of the former it is frequently said that an All Wise Providence directs, and that the next life must be taken into account. This is doubtless true, but not always consoling.

The everyday tragedies of life will continue, and will multiply as the race increases. If they inspire in the heart of humanity a bond of common sympathy they will accomplish a purpose.

People are very much alike in spite of environment and the brotherhood of man is not a myth.

Death thins the ranks and the victims are soon forgotten, but there is a duty to the living that should be regarded sacred. If sorrow is recognized as a common heritage and suffering as the lot of humanity, it will be possible to make, life brighter and dispel some of the clouds.

Human sympathy is a tangible thing. There is nothing visionary or supernatural about it. A warm clasp of the hand, or a comforting letter has brought solace to many a sad heart and inspired fresh courage.

Many people fail to realize their ambition, because they aspire to some great thing, but reward awaits every effort to help humanity in sorrow.

When the old scripture injunction, "No man liveth to himself" is more generally recognized, the tragedies of life will not seem so tragic, because human sympathy has lent a "hand" to the burden.

## A LITTLE PREVIOUS.

It is currently reported that Governor LaFollette now declares that he is not opposed to Senator Spooner, and that the Spooner plank in the platform, which he so strenuously decried, is without significance.

To the men who sat in the convention and enjoyed the performance from start to finish, this tardy statement may be received with credulity, but the conservative element of the convention, and the constituency they represented throughout the state understand very well that the governor has discovered that he was butting his head against a stone wall in opposing Spooner.

He professes friendship for Spooner because he can't defeat him, and if possible he wants a legislature that he can control.

This modern Moses has evolved a theory. The state is going to the dogs and is suffering for reform. The primary law according to the Stevens code is the great panacea.

The Gazette expresses republican sentiment in saying that he cautions laws need remodeling so that fair-minded democrats will not be permitted to control republican caucuses, but the state has about as much use for the Stevens primary law as it has for free silver. The sole and only object of that law is to build up an iron clad machine of LaFolletteism.

The governor lost his opportunity to harmonize the party in the convention. If he had withdrawn his opposition to Spooner at that time, and treated the conservative element with common decency, he would have been recognized as the leader of republican sentiment.

After leaving this element out of the party, it is too late in the day to claim that he is not opposed to Senator Spooner.

The governor will be elected by the element that nominated him, but he will be surrounded by a republican legislature who will look after the interests of Senator Spooner and the future welfare of the party.

The carnival will be over tonight. This will be the last evening of fun and merriment and then will come the cleaning up days. It has been a clean wholesome affair thus far and the gambling element have not been allowed to hold sway. The few games that were started were quickly stopped by the mayor and the police before they had fairly laid their enticing lay-outs down. Carnivals are great things if they are properly run.

"Bozzle" and her wonderful brain have been in Janesville on a visit. "Bozzle" is certainly one of the most uncanny productions that has ever been known in this age. Her wonderful memory for a dog or man together with her instinct is something so weird that one trembles when they see it exhibited. "Bozzle" is not an exhibition dog except to friends of the owner and then she shows off in her best manner.

Congressman Cooper refused to talk on the political situation of the state. He preferred to discuss national matters that were more attractive to him. His visit to Janesville did not explain why Racine county went against Rock county's candidate for governor. Mr. Cooper does not dis-

cuss state affairs with his constituents.

Mayor Rose visited Janesville yesterday and had a ride in the Elks' patrol. He smiled most graciously to the assembled crowd as he drove along behind the spirited animal that hauled the cart and he and his sisk had were quite admired by all who looked.

Chief of Police Hogan showed good judgment in his order prohibiting the use of those little rubber balls. The harmless looking little things were really dangerous and more than an annoyance to the pedestrians that were hit.

The biggest fun of the whole carnival was the Elks police and their patrol. That was really a feature not to be overlooked that really paid for itself in fun.

"Have you seen Bobo?" is the latest cry to be heard on the streets.

## PRESS COMMENT.

What a commotion it would cause if coal should drop a dollar or two in price.

Chicago Daily News: A harvest or trust is well calculated to give the populist party a boom.

Beloit Free Press: There are several affidavits of non-registered voters in this city bearing a notary public's signature which are being carefully considered.

Madison Democrat: The horseless age is also promised as the sparrowless. Street sweepings furnish the chief food of the English pests, and automobiles produce none.

Eau Claire Telegram: Burr W. Jones' partner Ray Stevens is the author of the Stevens primary election bill. It is evident that Mr. Stevens has not yet convinced his partner.

Oshkosh Times: If they can get money enough to do so, some of those striking laborers in the east should come to Wisconsin and get homes of their own.

Chicago News: Any one wanting to get a complete list of wealthy retired Chicago policemen has only to consult the pensioners who draw money from the fund established for poor widows and in incapacitated patrolmen.

Chicago Record-Herald: It is reported from Washington that the Platt amendment is not binding. Now all Cuba has to do is to step out and borrow all she wants. It's very simple and easy.

Racine Journal: The English papers only got around to publish the coronation ode of the poet laureate a few days ago, the same ode papers on this side published weeks previous.

Milwaukee Sentinel: French women are permitted to wear trousers if they secure a license for it. Over here lots of men have found that a marriage license has the same effect metaphorically speaking.

Fond du Lac Reporter: When the republican campaign opens in Wisconsin it is possible that it will be necessary for the stump speakers to hire two halls at each engagement—one for the Half-Breeds and one for the Stalwarts.

Sheboygan Journal: The Journal hardly believes that Governor LaFollette can be defeated under the existing circumstances, unless the democrats get together and work in harmony—a situation that does not confront them today. Talk about the republican disaffection—this is not a circumstance to that in the democratic ranks just now, if Sheboygan county is any criterion.

Neenah Times: It looks now as though Hon. Neal Brown will be the democratic candidate for governor of Wisconsin. No candidate ever received a bigger or more hearty boom. The Times is yet to see a solitary word in its state exchanges derogatory to Neal Brown. And this includes republican as well as democratic papers. They cannot say aught against him. He is a clean, able, fearless man—a logical candidate of true and pure democracy.

Madison Journal: The Spooner club in this assembly district, Mr. Spooner's home, is an indorsement to be proud of. Those who have interested themselves in securing the membership say that there are many persons who wish to sign but who have been unable to find one of the lists as no organized system to circulate the roll book has been followed. It is believed that the number of signers will easily reach 2,000. Arrangements are to be made by which the lists will be left at designated places by those who wish to sign them.

Chicago Chronicle: In Major General Corbin who is to attend the German army maneuvers, the emperor will enjoy the unique pleasure of meeting the entire United States army. Corbin is the whole business—horse, foot and dragons, with the signal corps and hospital service thrown in. His majesty will doubtless be interested in so comprehensive a warrior.

Milwaukee Wisconsin: The hot campaign of the La Crosse Chronicle against the renomination of Assemblyman Ray has ended in a complete collapse in that organ's home city. The ex-speaker has the confidence of his neighbors, and he is for the reelection of Senator Spooner, without conditions. Anti-Spooner sheets like the Chronicle, were able to influence some of the republican voters so long as they dissembled. But those among them that have shown their

true colors have quickly dropped into hopeless disesteem. The republican voters of Wisconsin, with few exceptions, are for the unconditional return of Senator Spooner.

Appleton Crescent: The Chilton Times favors Lyman J. Nash of Manitowish as the democratic candidate for congress in the Eighth district. Yes, and the best of timber for governor also. Mr. Nash is a man the state has a right to be proud of in his all around mental equipment.

Imitation Leather From Old Shoes. In France old shoes are bought up in quantities by rag dealers and sold to factories, where the shoes are first taken apart and submitted to long processes which turn them into paste, from which the material is transformed into an imitation leather, appearing very much like the finest morocco. Upon this material stylish designs are stamped and wall papers, trunk coverings and similar articles are manufactured from it.

Fashionable Women Athletic. Some of the fashionable women of Larchmont, the resort close to New York, have started the fad this year of riding astride. The number of women at this resort who ride horseback, sail yachts and handle fast automobiles is larger than ever before. When they are not enjoying out-of-door sports they are playing ping-pong or bridge whist.

Mosquitoes Invade London. Mosquitoes have appeared at Hackney and Clapton, London, and many children and adults have received painful stings.

## YOUR WANTS

Can Be Made Known Through The Gazette Want Column, 3 Lines 3 Times for 25c.

## WILL COMPLETE THIS SECTION

DR. BONSTEEL AND PROF. FALLYER GO TO STOUGHTON.

## MAKING MAP OF THE SECTION

Tobacco Country and Different Soils Are Thoroughly Tested by Them.

This afternoon Dr. Jay A. Bonsteel and wife, and Prof. Fallyer of the department of agriculture, soils division, left this city for Stoughton. From that place they will continue their labors in investigating and mapping the soils of this area of the country, preparatory to handing in a report to their chief, Prof. Milton Whitney, who was in this city on Thursday.

**Will Finish Work.**  
After leaving this city the two gentlemen will stay until about September 20 or later, to complete their work in this section of the state. Altogether some one hundred and seventy miles are yet left to be surveyed. This survey does not include any work in measuring or map making in the commonly accepted use of the term. The experts are provided with government maps and in these are indicated in the characteristic colors the varieties of soil found in the various parts of the country.

**The Three Points.**  
Three general points will be noted in their report to their chief, the character of the soil, the prevailing forms of agriculture, and the industries that are being taken up. All of these are embodied in the investigations that they are now making. The survey is not taken with any special attention to adaptability to any one special type of crop, as tobacco, but aims to give general information which will enable specialists to obtain points bearing upon their lines of work. The report will be published in a 17,000 edition with photographs and maps, to indicate the work done, and the whole edition will be used for free circulation, through the congressmen.

## CROOKS HAVE NO CHANCE TO WORK

Chief Hogan Keeps Close Watch on All Suspects in the City.

So far this week the carnival has been remarkably free of crooks and pick-pockets. No doubt there are plenty of fakirs circulating about in the crowd that would take anything they could get their hands on, but there has been no organized play made to work a crowd.

The only things reported to the police so far have been the work of local parties and in every instance the property taken has been restored.

**Has Close Watch.**  
Chief Hogan is keeping an eye on the crowds and has instructed his assistants to see that they keep a close watch on every crowd that gathers about the theaters and at the high dive so that "dippers" will not have a chance to get in their work. The chief also warns people to keep a close watch on their valuables and see that they are not relieved of them.

**Particular Attention.**  
Tonight being the last night of the carnival the chief is paying particular attention to the crowds as the crooks will go to all in their power to make a clean up this evening. The police have been so successful so far in protecting the people that they do not wish the lawless element to get the best of them tonight.

**Clean Carnival.**  
People from the outside say that they never saw a carnival run on cleaner lines than the one this week and the police and Elks are to be congratulated.

**Story Not True.**  
During the past week a report has been currently circulated that tonight's high dive by Prof. Dana Thompson would be his last public exhibition of that kind. Mr. Thompson has had relatives who have met with death in that pursuit and a fatal miscalculation or accident has been the termination of the lives of most high divers. It is said that Mr. Thompson had decided that the pursuit was too hazardous to be continued and that it would be better to stop immediately. The truth of this statement was strongly denied by the gentleman in question this morning. A week from tonight he will leave the Morris-Berger combination for four weeks, when he will take up a month's circuit with fairs in Iowa and Western Wisconsin. After that he will probably return to his present situation.

## NOT THE AUTHOR OF THE STORY

Rockford Register-Gazette Correspondent Says He Did Not Send Lying Report.

The authorship of the article regarding the Elks' carnival here that appeared in the Rockford Register-Gazette under a Janesville date line is emphatically denied by the correspondent. He says that he in not send in the sensational report that was printed and that he knows nothing of its authorship. His signed statement appears below:

"To the Editor of the Gazette:—I wish to emphatically deny that I sent to the Register-Gazette the article which has been attributed to me regarding the Elks' carnival in this city. The report I sent was simply a statement of the news of the events of the day and did not at all resemble the report printed."

"I have the assurance of Mr. Bartlett, editor of the Register-Gazette, that he will send me a letter absolving me from responsibility for the story."

"WILLIAM WATT,"  
Cor. Register-Gazette.

## BRIEF BITS OF LOCAL NEWS

8 o'clock clearing sale. Nash, Cail and see the famous Lambert typewriter at the T. P. Burns dry good store. The price is \$20. We close out all fruits and melons at 8 o'clock tonight.

Mrs. Charles Myhr and sons are home from Baraboo where they have been visiting friends.

Why pay \$100 for a typewriter when the \$20 Lambert will do the work? Sold by T. P. Burns.

Mrs. C. O. Gage and daughter, of Green Bay, are the guests of Mr. and Mrs. H. D. Murdoch.

A line of 45 inch heavy chevrons, all the new shades and black at per yard 50 cts. Bort, Bailey & Co.

Fine bath rooms at Wisch's barber shop, Hayes Block.

Don't fail to see the "Dann Farm Gate" at the Evansville fair—county, state and town farm rights for sale.

Wanted, at once—Twenty-five operators on waukees and petticoats. Call or address Isabel Manufacturing Company.

20 pieces white and cream wool goods, including sectionals, mohairs, chevrons, French flannels, Pekin stripes, armure dots, etc., all in white and cream. Bort, Bailey & Co.

Wanted—Help at canning factory. Inquire at office at factory, P. Hochendel, Jr., Co., Janesville, Wis.

All parties knowing themselves to be indebted to Albert Smith are requested to call at the store and settle.

There will be no preaching service at the Congregational church tomorrow, but Sunday school will be held as usual at 10 o'clock.

A line of 51 inch sponged and shrunk chevrons, extra fine quality for fine street suits, at per yard \$1.25. Bort, Bailey & Co.

The Lambert typewriter costs you \$20. Then why pay \$100 for a machine that does not do the work any better? To be seen at the T. P. Burns dry good store.

On account of being in Boston in attendance at the national convention of eye specialists, Mr. W. F. Hayes with F. C. Cook & Co., will not be in his office till next Saturday.

At the John Wamamaker store in Philadelphia over 1000 Lambert typewriters were sold in two weeks' time. This famous machine sells for \$20 and is warranted to do the work of any \$100 typewriter. T. P. Burns is the local agent and now has several of the machines on exhibition at his dry goods store.

P. J. Mount and D. W. Hayes presented a handsome appearance last evening while taking a ride up and down Milwaukee street on "Holy Moses."

## BUSINESS MEN INTERESTED.

Many Pay a Visit to T. P. Burns' Store to See Typewriter.

Many business men paid a visit to the T. P. Burns dry goods store during the day to inspect the famous Lambert typewriter which is now on exhibition there. This wonderful little machine does the work of a \$100 machine and sells for but \$20. Such a warranted typewriter will readily find many buyers in the vicinity the popular demand being for a practical machine at a moderate price.

**Just As Happy.**  
These streets were crowded last evening with pleasure seekers who seemed to enjoy themselves as heartily as if they had thrown confetti and had their eyes blackened with the ever present rubber ball.

## EDWARD B. McKEY DIES IN CHICAGO

Was a Former Resident of Janesville—Burial Will Take Place in This City

Edward B. McKey, formerly a resident of this city and a brother of Mrs. F. F. Stevens, died at his home, 5114 Hubbard avenue, Chicago, this morning at 4 o'clock. He had been in ill health for some time past. Deceased was forty-nine years of age and made this city his home until about ten years ago when he removed to Chicago where he made a business of receiverships.

Deceased leaves a wife and seven children. He was a brother of Mrs. F. F. Stevens of this city, and of Mrs. Judge Tuttle, of Chicago, and a cousin of George M. McKey, of this city. The bereaved ones will have the sympathy of many Janesville friends, who knew the deceased gentleman in the highest esteem.

The remains will be brought to this city for interment, the funeral party leaving Chicago on Monday morning at 11 o'clock. On their arrival in this city funeral services will be held in Trinity church and the burial will be in Oak Hill cemetery.

**Edward Bartels.**  
Edward A. Bartels, the nineteen-year-old son of Mr. and Mrs. John Bartels, of Afton, expired suddenly yesterday noon of heart disease. Deceased was taken suddenly ill and passed away inside of an hour. Besides his heart broken parents he leaves to mourn his death, one brother, Albert and one sister, Miss Agnes. The funeral will be held Sunday afternoon at 2 o'clock from the house and at 3:30 from the church in Afton. The interment will be in the Afton cemetery.

**Mr. Edgar G. Barret.**  
Telegraph operator of the Northwestern R. R. was very enthusiastic last night in his praises of the painless work of Dr. Richards, Dentist. He had just come from the dental office over Hall, Sayles & Fife's and said that he had three big teeth extracted absolutely without pain. Any one skeptical can feel free to ask him about it at any time.

**Real Estate Transfers.**

## WARD CAUCUSES FOR DEMOCRATS

THEY WERE HELD IN THIS CITY LAST EVENING

## FOR FOUR SETS OF DELEGATES

Men Who Go to the State Convention Will Favor Rose of Milwaukee for Governor.

Democratic caucuses for the purpose of electing delegates to the state assembly, congressional and county conventions were held in the different wards of the city last evening. They were not largely attended although considering the attractions about town a fair vote was polled. It is understood that the most of the delegates to the state convention are favorable to David Rose for Governor.

**First Ward.**  
The first ward caucus was held at the West Side fire station. James Sennett was elected chairman and C. D. Rose secretary. The delegates elected to the state and assembly convention are Calvin E. Rose, Walter Johnson, James Sennett and Frank Croak, and to the county and congressional are J. P. Baker, Martin Dunn, Henry Lank and Louis F. Knipp.

**Second Ward.**  
The second ward caucus was held at the East Side fire station. J. F. Hutchinson presiding. The state and assembly delegates are E. H. Connell, R. J. Whitton, Ernest Clemens and E. P. Wikom.

The county and congressional delegates are C. C. McLean, Daniel Skelly, J. Fred Hutchinson and John Doran.

**Third Ward.**  
The third ward caucus was held in the polling booth on Court street. E. H. Ryan was elected chairman and C. D. Rose secretary. The delegates elected to the state and assembly convention are E. H. Ryan, P. J. Mount and Elmer Sheeny were elected delegates to the state and assembly conventions. There was a vote between M. M. Farley, O. A. Oestreich and George G. Suther and for the fourth delegate, Elmer Cheyly.

W. H. Hubb, C. P. McLean and Geo. H. Smith were elected to the county and congressional convention.

**Fourth Ward.**  
The fourth ward caucus was held in the council chambers. I. F. Connors was chairman and C. K. Milmore, secretary. The state assembly county and congressional delegates are I. F. Connors, Fred H. Kothman, E. F. Hemming and Fred C. Burpee.

**Fifth Ward.**  
The fifth ward caucus was held in the polling booth of that ward. William A. Murray presided and George Croft was chosen secretary. The delegates to the state assembly, county and congressional conventions are J. B. McLean, Wm. Murray, Geo. Croft and Paul Rudolph.

## FALSE ALARMS ARE TURNED IN

Jokers Cause the Department Two Unnecessary Runs—Heavy Penalties.

An alarm of fire was turned in from box 28 at 3:20 o'clock this morning and at 3:41 o'clock one was turned in from box 21. The department turned out in short order only to find that they were false alarms turned in by some one out for a time. It will not be such a funny affair if they are found out and have to settle in a court where the fines are somewhat larger than in the Elks' court.

**Severe Penalty.**  
The penalty for this offense is severe and the police and the fire department will carefully investigate the affair and will make an example of the culprits if they are caught.

## NEWS OF THE CITY IN BRIEF.

**In Justice Court:** In Justice Earle's court this morning judgment was given for T. P. Burns against Elizabeth Pickering for \$25.

**Junior Y. M. C. A.:** The Junior class of the Y. M. C. A. returned from their annual outing at Delavan lake last night. There were about twenty-six in the bunch and they were a happy lot.

**Natural Flowers:** The carriage driven by Mrs. Marabel Fish Thursday's floral parade was decorated in natural flowers, white asters being used.

**Go To Milton:** The King's Daughters of the Baptist church have an invitation to attend a picnic and social at the home of Miss Reynolds of Milton on Tuesday afternoon, Aug. 26. All those intending to go will meet at the church at one o'clock Tuesday. Those having carriages will please bring them and a carryall will be provided for those who have no way of going.

**Want a Rebate:** The fakirs with the street carnival are not doing the business they expected and some of them are making a holler for some of their concession money. In most cases they have been turned down although in one or two cases they have been given a rebate.

**Library Stone:** Thomas Winchester, the foreman of the cut stone work for Cullen Bros., returned yesterday from Bedford, Ind., where he has been investigating the conditions in the quarry from which the stone has been secured for the Carnegie library. The quarry is in a demoralized condition from the strike but it will be possible to secure more stone as it is needed. It will not be possible to get any more stone that has already been machine cut, and it will be necessary to do all of the shaping here. Another car of brick has been received and the bricklayers are busily at work, but unless another car arrives soon it will be necessary to stop work again.

**Miss May Lambert,** who has been the guest of Mr. and Mrs. E. S. Williams for the last week has returned to her home in Washington, D. C.

Mrs. W. H. Henry of Michigan City, Ind., is visiting in the city, the guest of Mrs. Ida Brown.

## WILL TALK TO BUSINESS MEN

PRESIDENT OF VUDOR SHADE COMPANY HERE SOON.

## JANESVILLE HAS BEEN CHOSEN

An Eastern Concern Is Ready to Locate in the Bower City.

Next Monday Don Farnsworth of the Hough Shade company of Worcester, Mass., manufacturers of the Vudor porch shade, will be in the city to present this proposition for the transfer of his factory to this city. Everything is now favorable for the removal of the plant and it is believed that he will quickly come to some agreement with the local business men.

**Stockholders Favor Removal.**  
On last Wednesday a meeting of the stock holders of the company was held in Worcester and as a result of that meeting it was determined that all conditions seemed to favor a change of location, and that Janesville would be as well adopted for a western site as any which had been under discussion. It was feared that the Massachusetts capitalists might make a strenuous resistance to the change although little doubt was entertained of the possibility of accomplishing the desired removal to this city. The result of the meeting was all that could be wished or by local men who are interested in the meeting.

**His Proposition Unknown.**  
Mr. Farnsworth, the president of the company will immediately visit Janesville and he will then present his proposition to those citizens who have been most thoroughly interested in bringing the Vudor shade company to this city. It is not known what offer will be that he will make. It may be that he will choose to present the matter to the business men's association, or the whole matter may be left to a few individuals who are willing to take it up. It is possible that a third alternative will be presented.

**Bands Here.**  
The Edgerton and Brodhead bands were in attendance at the carnival today and visited the numerous attractions giving them a good send off. The bands are both good ones and were a great help to the success of the carnival.

**No Confetti.**  
The throwing of confetti and the use of rubber balls will not be permitted this evening. Chief Hogan's order to this effect will be enforced.

**PERSONAL.**—Very wealthy, attractive lady, large bank account and property, generous, would marry and financially aid kind husband. 2 miles S. 22 N. 22 W. St. Louis, Mo.

\$40 for month and expenses paid good men for taking orders. Steady work. Apply Protective Nurseries, Geneva, N. Y.

"one" son, Jay, survive to mourn the loss of a kind mother and devoted wife. Mrs. Murrey was a woman beloved by all who knew her and her death has cast a gloom over the entire community.

The funeral services were held in the M. E. church Tuesday afternoon. Services being conducted by Rev. G. W. Dennison of Madison.

The flowers which were many and beautiful, the casket being literally covered, showed the esteem in which she was held. The Royal Neighbors of American of which she was an honored member, attended in a body. Those from a distance who attended the funeral were: Mrs. Henry Murrey and daughter Alvina, Mr. and Mrs. John Adams of Brodhead, Mrs. L. Bagley, Mrs. S. S. Burdick, of Evansville, Mr. and Mrs. M. E. Murrey of Monticello.

**CENTER.**

Center, Aug. 21.—A goodly number from here attended the carnival in Janesville this week.

William Gotschalk is building a new granary.

Miss Nellie Roberts is visiting friends in Janesville.

Real estate agent Sweeney of Edgerton sold two farms in this vicinity this week.

Mrs. Sina Schroeder of Footville William Damrow is building an addition on his tobacco shed.

The entertainment given by the young people Tuesday evening was a success from start to finish. The comic dialogue, "The Bashful Boy and Sister Fuller's Hired Help," was amusing and enjoyed by all who heard them, after the programme the young ladies gave a spread at the home of Mr. and Mrs. James Roberts for those who took part in the entertainment.

Rev. Milton Wells, of Footville, will preach at the Christian church Sunday afternoon.

Makes children eat, sleep and grow; Makes mother strong and vigorous. Makes a healthy family. That's what Rocky Mountain Tea does. Smith's Pharmacy.

Miss Ethel Ring of Neillsville has been awarded the Wisconsin scholarship at the Oread Institute of domestic science at Worcester, Mass.

## NO INTERFERENCE FROM MORGAN. RETICENT AS TO HIS POSITION

In Answer to a Question Regarding His Stand on Arbitration of Miners' Trouble Financier Says He Is Not Head of Coal Roads.

New York, Aug. 23.—J. Pierpont Morgan, when asked if he would interfere in the hard coal strike, said: "What action can I take? I am not the president of the coal railroads."

When questioned further regarding possible action looking toward arbitration, Mr. Morgan replied: "I have not said that I will not interfere. Neither have I said that I will."

Mr. Morgan also said that he knew nothing of the report that he would hold a conference shortly with President Mitchell of the United Mine Workers.

**No Conference Held.**

Partners of Mr. Morgan said that no conference on the coal situation was held Friday and that no arrangements had been made for a conference between Mr. Morgan and anybody else regarding a settlement of the strike.

Henry S. Fleming, secretary of the Anthracite Coal Operators' association, 1 Broadway, representing the independent operators, who has returned from a visit to the anthracite mining regions, said:

"There are miners returning to work at all the collieries and the mines are being operated in a small way. They are being prepared for the general break-up of the strike. Some of the strikers who have been afraid to go back are plucking up courage and returning to work."

**No Interference.**

Mr. Fleming said that there was no possibility of any one interfering in the strike. The independent operators were standing by the coal carrying companies, and all were a unit in this respect.

"What about Mr. Morgan?" he was asked. "I don't believe even Mr. Morgan would be allowed to interfere now, even if he wanted to interfere, and I don't believe he does."

**FIRE ON WORKERS.**

Strikers Said to Have Kept Up Fusillade on Washery.

Wilkesbarre, Pa., Aug. 23.—The Butler washery and the Dodge colliery of the Delaware, Lackawanna and Western company, in which operations had recently been resumed, were closed Friday by striking miners. At the Butler washery the men marched out in a body. It is asserted by the men that all through the night strikers in ambush kept up a continuous fire on the washery and the shed in which the workmen slept. Not being afforded sufficient protection, the men say, they decided to suspend operations.

Eighty workmen had been employed at the Dodge colliery, and the strikers prevailed upon them to leave the workings. President Nicholls of this district issued a card saying that the union has positions in the soft coal fields for 350 miners with certificates.

**First Coal Train.**

Shenandoah, Pa., Aug. 23.—Fifteen cars of coal were shipped from Silver creek colliery, near New Philadelphia Friday, and it was the first coal that has been prepared for market in that district since the strike began. The strikers were much excited, and several hundred congregated along the railway tracks watching the train go by. The crowd got in an angry mood at the sight of the loaded cars, but there was no serious demonstration and affairs soon quieted.

**CYCLONE STRIKES NEBRASKA**

Heavy Hail of Usual Proportions, Accompanies the Storm.

Omaha, Neb., Aug. 23.—A cyclone accompanied by hail and rain passed over a strip along the Nebraska river near Hemingford. So far as known no lives were lost and no buildings or any consequence destroyed. The region is twenty miles from a telegraph or telephone line and details are difficult to get. The hailstones were two and one-half inches through.

**IOWA STATE FAIR BEST OF ALL**

Live Stock Exhibition Eclipses all Past Events in the State.

Des Moines, Iowa, Aug. 23.—The forty-eighth annual Iowa state fair live stock exhibition will completely eclipse all past fairs. The dedication of the new stock pavilion, erected at a cost of \$50,000, will take place Monday. The cattle entries exceed by 100 those at the International fair stock show in Chicago last winter.

**Child Drowns at a Picnic.**

Brazil, Ind., Aug. 23.—The 8-year-old child of Rev. Harry Everett of Clay City was drowned in Eel river during a picnic given by the Presbyterian church of that place.

**Shoots His Child.**

Carlville, Ill., Aug. 23.—Rev. Henry Turner, pastor of the colored Baptist church, shot and instantly killed his 6-year-old son, whom he mistook for a burglar.

Thousands of dying fish filled the Milwaukee river on Friday, apparently poisoned by the refuse from the woolen mills and tanneries farther up the river.

Henry B. Oberndorfer of Milwaukee, secretary of the Adler clothing company left that city on Friday night for New York where he will sail for Europe in search of health.

## RESULTS OF FRIDAY'S GAMES

## VIGOROUS TALK BY ROOSEVELT.

### HAS KEPT PROMISE TO CUBA

Five Thousand Men and Women Listen to the Pointed Aphorisms of the Chief Executive Which Provoke Applause at Hartford, Conn.

Hartford, Conn., Aug. 23.—President Roosevelt signalized the opening of his tour through New England by a forceful speech. He devoted his time chiefly to events which had followed the war with Spain and insisted developments in Cuba and the colonies abundantly justified every step that had been taken by the government. The promise to Cuba had been kept. In international affairs the new republic must be to a degree part of our political system, while our tariff system should be arranged to give her some measure of our prosperity.

Points to Porto Rico.

He pointed to Porto Rico as an example of the best method of governing our insular possessions, but in the interest of the people this country would keep the powers of shaping their destiny.

In the Philippines the formidable task of securing peace and introducing just and wise civil rule, the President said, had been accomplished and inhabitants of the islands were guaranteed civil and religious rights. The awakening of the Orient, he declared, meant very much to all the nations of Christendom and our interests now were as great in the Pacific as in the Atlantic. The possession of the Philippines had helped us as the securing of the open door in China had helped us.

Workmen in Audience.

Five thousand men and women crowded the Coliseum to hear the address of the President. At least two-thirds of the audience were workmen, and the enthusiasm manifested by them when the President alluded to the rights of the toiler aroused the keenest interest. Again and again during his prefatory remarks, which were based on an incident of the afternoon—the presentation of a floral horseshoe by the workmen—the President was interrupted by vociferous applause.

Such side remarks as the following, "I do not care how honest a man may be; if he is timid he is no good," evoked prolonged laughter.

Provokes Mirth.

Again, in speaking of the isthmian canal, he aroused mirth by saying that one of the problems in connection with the great engineering feat would be to procure a \$50,000 patriotic, ambitious man to work for a \$10,000 fee.

President Roosevelt was introduced to the audience in the Coliseum by Colonel Jacob L. Green. Through Senator Platt he tendered his thanks to the state for the splendid reception accorded him and to Mayor Sullivan he made his thanks to the people of the city of Hartford.

### DEATH FOR THE CATS AND DOGS

Animals Held Responsible for the Spread of Diphtheria.

Stroh, Ind., Aug. 23.—Every dog and cat within the confines of the town has been killed by order of the health authorities, who believe that the canines and felines are responsible for an epidemic of diphtheria, which is raging in the village. The quarantine established failed to confine the disease and an investigation proved that dogs and cats suffering from the disease were spreading the contagion everywhere.

### ROBBERY RIFE NEAR WAUKESHA

Burglars Having Pleasant Time in Vicinity of Wisconsin Town.

Waukesha, Wis., Aug. 23.—A gang of burglars is systematically working the county. Last week fourteen houses in the towns of Merton and Menomonee Falls were entered, and small sums of cash taken. Schraudenbach's store, at Merton, was entered and the proprietor awakened and forced to hand over his money. Many other depredations are reported.

### Object to Troops.

Havana, Aug. 23.—A resolution was adopted in the house of representatives asking the executive for information with regard to the landing of 100 American soldiers at Santiago de Cuba. The soldiers were sent to relieve the American troops quartered in the fortresses at Santiago.

### Grand Trunk President.

Montreal, Quebec, Aug. 23.—Private advices from London are to the effect that Charles M. Hays, second vice president and general manager of the Grand Trunk railway system, is to succeed Sir C. Rivers Wilson as president of the company.

### Hold Up a Postmaster.

Stuttgart, Ark., Aug. 23.—Deputy Postmaster Sockland was held up, bound and gagged by robbers who took \$600 in money and about \$800 worth of stamps and made their escape.

### Von Diedrichs Resigns.

Berlin, Aug. 23.—Admiral von Diedrichs, who was recently appointed chief admiral on the staff of the Imperial navy, has resigned. Vice Admiral Buchsels will succeed him.

### In Jersey.

A farmer of Lambertville, N. J., has died from the bite of a rooster. He had thought that the bite of the Jersey skelter was the only thing in Jersey for which there was no antidote.

## SOCIALIST PRIEST QUITS CHURCH

Father Haggerty to Devote His Energies to Economic Creed.

Cincinnati, Ohio, Aug. 23.—Word has been received here that Rev. Thomas Haggerty, a Catholic priest well known in Cincinnati, who has been affiliated with the diocese of Dallas Tex., has sent his resignation as a priest to Bishop Dunne of Dallas, and has also withdrawn from the membership of the Catholic church. Some years ago Father Haggerty took up the study of Socialism, and soon became one of its most ardent apostles. The reason assigned for his withdrawal, Father Haggerty states, is the church's stand against Socialism and the incompatibility of her teachings with the doctrines of his economic creed. He will devote his entire energies to the propagation of Socialism.

## TOO PROUD TO BEG, THEY STARVE

Mother Dies of Hunger and Daughter Is Half-Crazed.

Baltimore, Aug. 23.—Mrs. Sarah Schumacher, aged 70 years, was found dead in her room and her daughter, Martha, was wandering in a half-crazed condition about the lower floor of their home. Coroner Jones said that Mrs. Schumacher had died from starvation. Martha Schumacher said she and her mother were too proud to tell any one of their impoverished condition and that for several days neither had had a meal. It is said the Schumachers have well-to-do relatives in Philadelphia and in Virginia. Ill health had rendered Martha, the sole support of her widowed mother, unable to work for several weeks.

## SOLDIERS FIGHT IN DANCE HALL

Race Prejudice Causes Exchange of Shots Between Whites and Blacks.

Havre, Mont., Aug. 23.—Race prejudice precipitated an affray between white and black soldiers in a dance hall near Fort Assiniboine. Private Pong, white, of the Thirteenth cavalry was shot in the back and will die. Private Frayor of the Twenty-fourth Infantry is also at the point of death with three bullet wounds inflicted by Pong. Private Joe Brooks of Troop E, Thirteenth cavalry, is believed to have shot Pong.

## IS LULLED TO DEATH BY MUSIC

Musicians Comply With Last Request of Their Bandmaster.

St. Joseph, Mo., Aug. 23.—Samuel Pryor, founder of Pryor's band, died of a gastric disease. Prof. Pryor was one of the interesting characters of this city—58 years old and had never performed a day's labor at anything except music. In response to a request of the dying bandmaster, his musicians played lively airs for him as he passed away, several pieces being of his own composition.

## Cunard Line Gets Subsidy.

London, Aug. 23.—It is rumored in Liverpool shipping circles that on the decision of the Cunard line not to join the shipping combine the government consented largely to increase the company's mail subsidy.

## Receiver for Assurance Company.

Columbus, Ohio, Aug. 23.—A. L. Thurman was appointed receiver of the Mercantile Assurance company. Three suits have been brought by stockholders charging misrepresentation in the sale of the stock.

## Family Is Poisoned.

Bedford, Ind., Aug. 23.—The entire family of John Colliers was poisoned from eating bread made from lard containing arsenic. Little Mary Collier is not expected to live.

## Sir Thomas in Auto Smash.

London, Aug. 23.—Sir Thomas Lipton was riding in his automobile at Woodgreen, near London, when the machine skidded and dashed into an iron railing. Lipton was badly shaken, but was not hurt.

## Arrested for an Old Murder.

Bloomington, Ind., Aug. 23.—James Sloan, wanted at Bellville, Ill., on a charge of murder committed eighteen months ago, was arrested while attending a soldiers' reunion near here.

## King to Adopt Peasant Lad.

Vienna, Aug. 23.—King Alexander of Servia, realizing that he cannot expect children of his own, has determined to adopt a peasant boy as his successor to the throne.

## Shoots Wife and Self.

Harlan, Iowa, Aug. 23.—A double tragedy occurred here. C. W. Knouse, who had been drinking, shot his wife from whom he has been separated, and then shot himself.

## Labor Day Proclamation.

Springfield, Ill., Aug. 23.—Acting Governor Northcott has issued a proclamation designating Monday, Sept. 1, as Labor Day, declaring it a legal holiday, and calling upon the citizens generally to co-operate with the laboring classes in the observance of the day.

## To Run Down Outlaws.

Middlesboro, Ky., Aug. 23.—An organized posse has left Frelough, Va., for the purpose of pursuing members of the George Potter band of outlaws, who are said to be guilty of several murders, robberies and numerous other offenses.

## Discovers a Raphael.

Berlin, Aug. 23.—A great stir has been caused in aristocratic circles by the statement of a well known picture restorer who alleges that he has discovered a new Raphael, representing the ascension of the Virgin.

Over the Cape Ann course the new battleship Maine took her trial trip today.

## MINERS' STRIKE AFFECTS TRADE.

### SOFT COAL AND COKE SCARCE

Deliveries Are Utterly Inadequate Owing to the Lack of Cars for Transportation—Reports From Farming Regions Are Less Cheerful.

New York, Aug. 23.—R. G. Dun & Co.'s weekly review of trade says: "Fuel scarcity is still the one serious industrial handicap. Protracted idleness at anthracite mines increased the pressure for soft coal and coke and, despite new records of output, deliveries are utterly inadequate owing to the lack of motive power. Freight blockade of coke trains has closed many furnaces, while the increasing call for transporting facilities on crop account gives little prospect of early relief."

"Railway earnings thus far reported for August show gains of 3.4 per cent over last year and 17 per cent over 1900. Weather conditions have been less uniformly favorable for agricultural products, yet no severe loss is reported. Current trade is of good volume for the season, while the outlook for the future is bright. Buyers the numerous in all the leading markets, placing orders liberally at well-sustained quotations."

### Increase in Imports.

"As the active blast furnace capacity of this country decreases through want of fuel foreign pig iron is purchased more freely and Scotch wares have advanced because of the steady demand. Domestic needs are now far beyond all precedent and even with the available home capacity active there would be imports, although less than are now arriving."

"Textile mills are well occupied, business gradually increasing in the cotton goods division, and demands for quick delivery show that stocks are low."

"New lines of light-weight woollens and worsteds for spring wear are now fully opened and buyers are placing much business. Quotations are steadily maintained, with the market in healthy condition."

### Record Prices for Hides.

"Footwear shops at the east have assurance of full operation for two months, although there is much complaint of quotations in connection with the sensational movement of the material. Packer hides at Chicago have attained new high-record prices and oak sole leather has advanced."

"Staple products average somewhat higher in prices owing to less uniformly good news from the agricultural sections. No serious disaster occurred, but excessive rain retarded the development of grain and interrupted harvesting."

"The other extreme of weather caused complaint at the south, drought being in evidence at many points."

"Failures for the week numbered 207 in the United States, against 205 last year, and 30 in Canada, against 35 a year ago."

## NEW TOWN BUDS IN OKLAHOMA

Barren Plain of the Day Before Shelters 3,000 Souls.

Thomas City, Okla., Aug. 23.—The birth of the new town of Thomas City, Custer county, Okla., was attended by 3,000 persons. Drawing for lots was begun and over 200 lots were placed with the owners. Some of the lots which cost \$20 are now marked \$1,000 to \$1,500. There is plenty of good water and an abundance of food. The barren plain is converted into a tented village of 3,000 inhabitants. A few hours after the lots were drawn a newspaper was printed in the village and circulated.

## MUST MAKE ANNUAL REPORTS

Illinois Law Regarding Corporations Allows No Evasion.

Springfield, Ill., Aug. 23.—The law providing that corporations organized under the laws of the state of Illinois must make annual reports to the secretary of state, and providing for a cancellation of charters of corporations failing to make reports is mandatory, and the secretary of state has no discretion in the matter. This is the interpretation placed upon the law by Attorney General Hamlin, in response to numerous inquiries directed to his department.

## Death Due to Grief.

Furnessville, Ind., Aug. 23.—The daughter of Isaac Hilbert died and was buried. After the family returned home their only child remaining, Besie, aged 11, died suddenly. Physicians claim her death was due to grief over the loss of her sister and a brother.

## Where's That Sugar?

Duluth, Minn., Aug. 23.—The discovery has been made that 109,000 pounds of sugar belonging to the sugar trust and stored in a Duluth warehouse is missing. The sugar taken is valued at \$6,000.

## Sultan's Narrow Escape.

Tankier, Aug. 23.—The Sultan of Morocco narrowly escaped being hurled to death while automobiling in Fez. His chauffeur lost control of the machine, which turned and dashed into a stone wall.

## With Their Feet.

A University of Chicago professor says few men would be poets if they could do anything with their hands. Still, many poets do astonishingly material stunts with their feet.—Denver Republican.

## TREASURER SETTLES IN FULL

Weams Heavy Tolls Twenty-Nine Years to Pay County.

Anderson, Ind., Aug. 23.—Weams Heavy, treasurer of Madison County when the county lost nearly \$20,000 twenty-nine years ago by the failure of the Stillwell bank here, has just paid to Auditor Crim \$1,200. With \$300 more, which Heavy said he would pay before the winter, he will have restored to the county all it lost and will also lift the last mortgage he gave on his farm to protect his bondsmen. For twenty-nine years Heavy has worked incessantly on his farm, saving every dollar possible and turning it over to Madison county.

## SHERIFF'S WIFE COWS BAD MEN

Drives Rebellious Prisoners to Their Cells With an Ax.

Centerville, Iowa, Aug. 23.—A mutiny occurred in the county jail, resulting in the serious wounding of Sheriff Davis. The sheriff's wife seized an ax and with the assistance of Deputy Bevington, who had a revolver, forced the prisoners back to their cells. The mutiny followed a series of attempts to break jail within the last week, two of which were successful.

## Seek Church Data.

London, Aug. 23.—A deputation from the Congregational union has left England to inquire into the condition of the Congregational churches in Canada. The deputation will travel across the dominion to Vancouver.

## Deaths Number Seventeen.

Williamston, Del., Aug. 23.—The body of Joel Hutton, a fireman, was taken from the ruins at the Delaware pulp works. This accounts for all the missing men and makes the total of deaths seventeen.

## Georgia Peaches in England.

Macon, Ga., Aug. 23.—The recent experimental shipment of two car loads of Georgia peaches to England was highly successful. The fruit arrived in fine shape and brought handsome profits.

## Child Is Burned to Death.

Valparaiso, Ind., Aug. 23.—Vera Coffin of San Pierre, aged 5 years, while playing around the kitchen was burned to death, her clothes catching fire from the cook stove.

When a man is drowning his rescue is a question of timely help. It is the same thing in disease. Many a time the doctor says of a man whose condition is hopeless, "If you'd begun in time you might have been cured."

This is especially true when the disease affects the lungs. Delay is dangerous. The timely use of Dr. Pierce's Golden Medical Discovery will result in a quick cure of deep-seated coughs, bronchitis, and weak lungs. Even when hemorrhages have been frequent and profuse "Golden Medical Discovery" has been used time and again with the result of a perfect and permanent cure. Mr. McCausley, of Leechburg, Armstrong Co., Pa., had eighty-one hemorrhages, and after other medical aid had failed he was completely cured by the use of "Golden Medical Discovery."

Accept no substitute for "Golden Medical Discovery." There is no other medicine just as good for "weak" lungs. This was in poor health when I commenced taking Dr. Pierce's medicine," writes Dr. Elmer Lawler, of Volga, Jefferson Co., Ind. "I had stomach, kidney, heart, and lung troubles. Was not able to do any work and had a severe cough and hemorrhage of the lungs, but after using your medicine a while I commenced to gain in strength and flesh, and stopped coughing right away. Took about six bottles of the 'Golden Medical Discovery' then, and last spring I had Grippe and it settled on my lungs, leaving me with a severe cough. I had the doctor, but he didn't seem to help me any; so I commenced your medicine again and took three or four bottles of the 'Discovery' and two vials of Dr. Pierce's Pellets, and that straightened me up. I feel like a different person, gladly recommend your medicine to all sufferers, for I know it cured me."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

## CHARLES W. BLISS, OSTEOPATHIST.

HOURS:—9 to 12 a.m. 2 to 5 p.m.  
Saturdays: 9 to 12 a.m.  
322 Hayes Block. Both Phones 129

## THE LANPHEAR INSTITUTE.

The Lanphear Institute does not sell diplomas. It is not a diploma mill. The standing of its graduates cannot be questioned. The degree conferred by the Lanphear Institute is recognized everywhere.

Graduates in Magnetic Healing are in great demand and easily earn from \$5 to \$50 per day and the gratitude of those they relieve from pain and suffering by this system of drugless healing. Magnetic Healing is a dignified and honorable profession for both men and women. It is certainly one of the best paying professions open to-day. Without giving up your present occupation, you can become a Magnetic Healer by studying at home. Mrs. Lanphear has made this possible by issuing a thorough Mail Course in Magnetic Healing, and its theory and practice. This may be the very opportunity that you are looking for. When choosing a calling, choose one that is successful. Choose the best; will you enter?

For full and free particulars call on or write to Mrs. M. J. Lanphear, 1214 First Avenue, Eau Claire, Wis.

## ST. PAUL DEPOT IS BEING PUSHED

Good Weather Gives Fresh Impetus to the Work Now On.

The work on the St. Paul passenger depot is being rushed during the favorable weather.

### Trusses Here

The trusses for the roof are about all in place and quite a portion of the iron supports for the platform sheds are in position. The contractors are well pleased with the progress of the work and will soon have a building all inclosed so that bad weather need not retard the work so very much.

### Handsome Structure

The company will have a handsome station when it is completed but have a number of old buildings near it that spoil its good looks.

### The Make-up of Brooklyn.

There are in the borough of Brooklyn 20,000 apartment or tenement houses (less than half the number of New York), 11,000 stores, 10,000 stables, 5,000 factories, 541 hotels or hotel-saloons, 315 schools, 540 churches, ninety theaters, ninety-one lodging houses, 215 clubs, forty-six station houses, 126 engine houses, 153 hospitals and asylums and 1,300 warehouses.

### Odd Whims in Ornaments.

A ring that has belonged to no fewer than seven murderers was not long since chosen by a young soldier as an engagement ring—a somewhat ghastly fancy, as is that of a lady whose most treasured possession is a giraffe made in the eighteenth century from the hair of female malefactors who had suffered the extreme penalty of the law.

### Had the Same Complaint.

Meredith, the novelist, has been in bad health for some time and now is unable to take the long country walks of which he is so fond. The convicts in Sing Sing prison issue a weekly paper, the editor of which feelingly comments on Mr. Meredith's condition, adding: "We have been afflicted in the same way for several years."

### Hay Carried for Miles.

During a thunderstorm at Troners-hill, Sussex (Eng.), a whirlwind of exceptional power and velocity was experienced. A whole row of hay, ready for carting, was carried by the wind to a tremendous height and deposited in the neighborhood of Leigh Hill, in Surrey, several miles distant.

### Three Years in Making.

In the treasure room of the Maharajah of Baroda is stored a piece of woven work which cost £200,000. It is only 10 feet by six feet in size, but it is woven from strings of pure pearls with a center and corner circles of diamonds. It took three years to make.

### From What Low Uses.

Fashion was the old name for a certain disease of the horse. It is alluded to in "The Taming of the Shrew," where Petruchio's horse is said to be "infected with the fashions." The complaint is a common one now, but not among horses.

### Balfour at Work.

Mr. Balfour, the new British premier, nearly always stands while writing or studying. For many years he has worked at a tall desk, on which he keeps two candles, so as to be ready for the dark days so common in London.

### Bet Under Government Supervision.

Betting on the results of the recent municipal elections at Rome was permitted by the government. The wagering was conducted on the parliamentary system and the profits were devoted to charitable purposes.

### Long-Lived Fish.

There are now living in the Royal Aquarium in Russia several carp that are known to be over 600 years old, and it has been ascertained in a number of cases that whales live to be over 200 years old.
